

Agony Scene "Judas"

They shut their eyes now that night has fallen and pray
the wolves are kept at bay for now the mist hangs arms
wide open like some cruel depiction of Christ for now
the silence comforts lost souls who in this moment
hang gracefully by the dead hidden by shadows
who've come to take them in their sleep falling farther
in darkness eyes wide lacking comprehension as
sillouettes dance in the flames their limbs bound by the
shadows that seem to stare back from the pits of black
for now the silence comforts lost souls who in this
moment hang gracefully by the dead hidden by
shadows who's screams echo for eternity awakened by
their screams like something of a nightmare lacking
the desire to breathe wishing for the end
