Hear/here the found out lying
Answers you're gonna have to go find

He was to blame for trying
Oh la

Here they found right by you
I know of the guide
And I know the girl who are about to die
You mean it as a chance to unite

You're taking a chance being here
Here's all the chances you wanted to feel

You never do go anywhere
You never now go anywhere

The second glances to see if you're here
(...universe to see?)
Staying in touch with what's real
Ideas you're gonna have to conceal

Hear/here the found out lying
Answers you're gonna have to go find

He was to blame for trying
All of the years are flying right by
