They say there really is a place called heaven
It's something that I know I can believe
Because the moment that you took my hand
I heard a thousand little angels sing
And it seems you've taken over
And it seems that it's okay
And it seems that I can't make it
No way?
Chorus:
And I feel so strange, do you see a change?
Yes, I feel so strange
I don't know what it is
Please tell me what it is?
A billion bees are buzzing in my brain
And my heart feels like it's gonna burst

I'm like a fish out of a big blue ocean
And only you can satisfy my thirst
I won't take much longer
For I'll break into two
And I pray that this thing
Is just a phase that I'm going through
Chorus
And it seems you've taken over
And it seems that it's okay
And it seems that I can't make it
No way?
Chorus
