Loving You

Its been quite a while
You've really kept me wanting you
You've got some style, you're so unique
So beautiful, so warm, so deep

Stay with me tonight
Let me know the kind of love
That will remain and forever be
A dream that you have made reality

(Oh) Lovin' you, (woo) is such an easy thing to do
No, you never know it's drivin' me crazy
Cause it grows and grows
But I wont let it stop
No, I'm not givin' up lovin' you, oh lovin' you
Just a bit too much

It's been quite a while
I never felt so easily
Wonder how you broke my style
You're close to me
I need you now
Stay with me tonight
It's got to be just too much love
That will remain and forever be
A dream that had become reality
