### "Deaf World"

Visit "[Deaf World](#)" on MotoLyrics.com

We tried to explain but nobody could understand us  
We tried to find our words in a language no one spoke  
Why this?  
Who made this deaf world?  
It's your fear that will not let this be...  
We sang our truth and only you heard our silence  
But word by word our voice failed to repeat  
Why this?  
Who made this deaf world?  
You kill me if now you say we're lost  
We tried so hard... for nothing  
It was our light and a reason to go on  
It's too late  
What made you think now?  
It's too late  
Our youth is gone  
We're so tired now
