"Stay"

Visit "[Stay](#)" on MotoLyrics.com

Can't you see
That nobody wants us here tonight
Please at least
See the way they greet you back...
I can hear them say
That you don't belong here
Who was it that told you
To come to this party
You don't need all this crap
I'm sick of you trying
To speak with their accent
I guess I'm just sorry...
Stay
Keep on pretending that those are your best friends
I'm out of here, I can't stand this scene
Puede ser que llegue un día en que comprendas
El día que despiertes que entiendas que siento
Al ver como olvidas y cambias quien eres
You don't want to see how this really is
You don't want to hear what I have to say
You're too busy, you don't hear my goodbye
Stay, keep on practicing how to smile
What I got to, what I got to tell you...
