Astral spirits run through the limbos  
Where no physical laws could govern there  
The old time is lost when human being  
Worshipped God, was afraid of him

We keep our knowledge  
Too dangerous for us  
Our craft is the edge  
The key of wisdom  
You're my image  
But you're of my clone  
Don't enter our domain  
Or will come the ELEMENTAL DECAY

Were wolves and trolls will invade Asgard  
Atroce mutants are living their world  
Essence of live, bows on the altar  
Technological abominations are the result of war  
Technological level  
Have killed the old rites  
Fainest nymph and owosh are in the wither domain  
Spirit against matter  
There's no logical laws  
Don't cross the gate or it'll be the ELEMENTAL DECAY

The day will come when human being  
Will obscede the gods and control their domain  
When their spiritual maturity  
Will reach her paroxysm  
This time will be the good one  
You'll understand why  
Our power can't be yours  
You'll have to wait for this time  
You've got a lot to learn  
To reach the top  
You can't enter now or will come the ELEMENTAL  
DECAY!
