[Music & Lyrics : Alex COLIN-TOCQUAINE]

Look inside the past  
Of humanity  
Hear the tribes  
Tearing the forest serenity  
According to ritual  
They gathered at night  
To pray the gods of nature  
Through their tribal dance

Look inside your past  
And face the heritage  
Left by the ancients  
And find a truth who scares  
Now read in your heart ,  
Free your demons  
Exorcise your fears  
And face your soul

I summon you  
To gather at dawn  
To dance around the fire  
And push the border of your mind  
Hey !my tribes, hail my name  
Worship me forever  
In your tribal dance

Look inside you  
Deep inside-..
