Try to hide the screams inside
Supersede your own remorse
See the world through eyes of anguish
Live a life deceit
I will trace the fear in you
Bring it forth and drive you mad
Crush your dreams, shatter your hope
Burn your mind and eat your soul
It's getting darker in your mind
Voices tells to hate mankind
Destructive thoughts are taking form
Law and order now you scorn

Your mind is sickened with rancour
Being on the verge of dismay
Hatred now you glorify
Pay the price to putrify
I will trace the fear in you
Bring it forth and drive you mad
Crush your life, shatter your existence
Burn your thoughts and eat your void
You can't stand the pain you endure
As your human body decays
Feel free to enter your mind
Explore what lies behind
