Violent despair emerge in shadows  
Craving for reflection  
Wisdom fades in a rotting body  
As it grows from nothingness  
So eager to deny the agony  
The aftermath is unpredictable  
The retribution of intelligent form  
Darker than a blaze of sorrow  
Intoxicating fearless dreams  
Floods a mind anger  
Pictures with leaking torrents  
A dream for the human eye  
Death takes a natural step  
And torment becomes absolute

Like an occult wave of madness  
Pain strikes the ruin  
The source of joy lies empty behind  
The smell of rotten life  
Leads to respiratory distress  
Fear is the key to sacrifice  
Petrified the human betrayal  
Only condemned spheres existing  
Say a prayer for the depraved  
Intoxicating fearless dreams  
Floods a mind anger  
Pictures with leaking torrents  
A dream for the human eye
