My hands are tied  
I'm on your side  
You are my girl  
I hold your hand and understand  
You are my girl, my girl

[Chorus:]  
She has to learn  
To walk on artificial grass  
And they have to earn her love

Your big embrace  
Has kept me in this place, my girl

And when we change  
We did not lose our faces, my girl

[Chorus]

Now all is said and done, my friend  
We're growing up

And now that we are  
What we have become  
I still don't know, sometimes

[Chorus]
