I am in the clear
To past monuments of time
I'm lost in here
You're lost in there
You're everything i love and fear

Lost at every turn
I can't stand still
Don't know what to do
I can't stand still
Lost at every turn
I can't stand still
Don't know what to do
I can't stand still

I pulled from a reflection
A form of me no feeling anymore
I'm lost in here
You're lost in there

You're everything i love and fear

Lost at every turn
I can't stand still
Don't know what to do
I can't stand still
Lost at every turn
I can't stand still
Don't know what to do
I can't stand still

Lost at every turn
I can't stand still
Don't know what to do
I can't stand still
Lost at every turn
I can't stand still
Don't know what to do
