And all of the times that i could see
Everything was blue and green
Just don't seem to understand
What is your master plan?

Won't you be here now and
Be here forever?
Won't you come back now?
You're like my synaesthesia
Won't you be here now and
Be here forever?
Won't you come back now?
You're like my synaesthesia

And all that i could
Find out
Right now
With my eyes i speak and
Tell you
Right now
Won't you be here now and
Be here forever?
Won't you come back now?
You're like my synaesthesia
Won't you be here now and
Be here forever?
Won't you come back now?
You're like my synaesthesia

Won't you be here now and
Be here forever?
Won't you come back now?
You're like my synaesthesia
Won't you be here now and
Be here forever?
Won't you come back now?
You're like my synaesthesia
