I see you crumble and fall on your knees  
I see you cry and i feel the release  
I fear the fear  
The hatred in your eyes  
And i fear the disease  
I fear the disease

When the day comes i'll be there  
I don't really care who you were  
When the day comes i'll be there

And i'll be there

I'm seeing now  
What i  
I'm seeing now  
What i now believe  
Would i?

When the day comes i'll be there  
I don't really care who you were  
When the day comes i'll be there  
And i'll be there
