Call on me when you're alone
baby if you need someone to love

Livio: if sometimes, things are hard for you
Joey: if nothing goes right for you

Livio: dont you worry cause im on your side
Joey: there's gonna be a way out everytime

Livio: if sometimes, you can see the light
Joey: happiness is always so bright

Livio: dont you worry cause i'm on your side
Joe: there's gonna be a way out everytime

Chorus:

ATC:
call on me when you're alone
baby if you need someone to love
call me, love is a thing that you need
so call on me, call on me

call on me when you're alone
baby if you need someone to love
call me, love is the answer you need
so call on me, call on me

Livio: (if you need someone to love...to love... to love....)

Joey: if somewhere, there were better days
Livio: their happy ever after again
Joey: dont you worry cause i'm on your side
there's gonna be a way out every time

Chorus:

ATC:
call on me when you're alone
baby if you need someone to love
call me, love is a thing that you need
so call on me, call on me

call on me when you're alone

baby if you need someone to love
call me, love is the answer you need
so call on me, call on me

Livio: (oh baby call on me....call on me... call on me....)

ATC: call on me when you're alone
baby if you need someone to love

Chorus:

ATC:

call on me when you're alone
baby if you need someone to love
call me, love is the thing that you need
so call on me, call on me

call on me when you're alone
baby if you need someone to love
call me, love is the answer you need
so call on me, call on me

call on me when you're alone
Livio: (ooh baby call on me!)
call on me when you're alone
baby, love is a thing that you need
so call on me, call on me.....
