You were always mine at school
But you would always play it cool
So I played along, and I was always strong

'Cause I knew there'd come a day
When you would be my come what may
So I played along, and all your friends were wrong

Everybody gets a wish
Make your dream come true
Then I know that I get mine
And maybe it's you

Chorus: x2

I'm gonna make you mine, till the end of all time
I'm gonna make you mine forever
I'm gonna make you mine, gonna give you a sign
I'm gonna make you mine forever

I'll be waiting patiently
So save the last dance just for me
'Cause I need you now
Let me show you how

I have seen it all before
It's misunderstood
If all is fair in love and war
Then why does it hurt so good?

Chorus x2

I have loved you from the start
You knew that I would
If love is really all so bad
Then why does it hurt so good?

Chorus x2
