

## ATC "No Place Like Home"

Visit "[No Place Like Home](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I'm on a mission in space  
wondering what you're up to  
thinking of you  
wish you were here by my side  
'cause I'm feeling lonely you're the only one

I'm setting my engine in reverse  
I'm done with the universe  
You'll never believe what I have seen

I've been.....  
traveling through space light years away  
into all the worlds in the unknown  
heading back to Earth I'm on my way  
there's no place like home  
til the day we meet I count the days  
I am missing you feel so alone  
heading back to Earth I'm on my way  
there's no place like home  
there is no place like home

I am surrounded by stars  
I can see them falling whom is calling  
hope you are waiting for me  
are you feeling lonely you're the only one

I'm on a mission in space  
wondering what you're up to  
thinking of you  
oh I wish you were here by my side  
now.....
