Black strap molasses and wheat germ bread  
Makes you live so long you wish you were dead  
Add some yogurt and you'll be well fed  
With black strap molasses and the wheat germ bread

(Jane Wyman)

My grandpa's older than the old grey mare  
He sits rocking in his rocking chair  
But now he's got a smile that he can't lose  
Grandma's sitting knitting baby shoes

From eating black strap molasses and wheat germ  
bread  
Makes you live so long you wish you were dead  
Add some yogurt and you'll be well fed  
With black strap molasses and the wheat germ bread

(Jimmy Durante)

I gave up cherry pie and t-bone steak  
Chicken fricassee and ice cream cake  
I don't need vitamins or pills at all  
I even mix it with the Hadacol

I'm eating black strap molasses and wheat germ bread  
Makes you live so long you wish you were dead  
Add some yogurt and you'll be well fed  
With black strap molasses and the wheat germ bread

(Groucho Marx)

My nerves were jumpy and I'd walk the floor  
I never got to sleep till after four

But since I'm eating right I feel okay  
I'm sleeping every night and half the day

From eating black strap molasses and wheat germ  
bread  
Makes you live so long you wish you were dead  
Add some yogurt and you'll be well fed  
With black strap molasses and the wheat germ bread

(Danny Kaye)

Now I was thinner than a pencil line  
Had no muscles and I had no spine  
But now I'm friskier than a pup  
All you have do is prop me up

Just feed me black strap molasses and wheat germ  
bread  
Makes you live so long you wish you were dead  
Add some yogurt and you'll be well fed  
With black strap molasses and the wheat germ bread

(JD) I know a fella who is ninety two  
(JW) Doctors told the guy that he was through  
(DK) But now that the doctor has been proven wrong  
(GM) He got more hop in him than Hopalong

From eating black strap molasses and wheat germ  
bread  
Makes you live so long you wish you were dead  
Add some yogurt and you'll be well fed  
With black strap molasses and the wheat germ bread
