I had a friend who died for something he really loved  
I had a friend who stood for none of the above  
I had a friend whose experience was riddled with scars  
Who got drunk one night in the trunk of Louie P.'s car

I had a friend who'd love to scare you as was his  
affections  
And tremble you did 'cause you weren't worthy of his  
friendship  
I had a friend, but now he's stranded on the Mesa st.  
exit  
And sometimes I'm jealous 'cause I'm still at the  
intersection  
I had a friend whose heart was too heavy to hold  
Yes there's blood on the median like a boat without  
oars

Duct tape the cross on the brown colored box  
Single file line on the unpaved road  
They tipped their hats, respect for the dead  
In Juarez, Mexico, where they buried my friend

There are no words to express  
The loss I feel since you've been away  
You made this typical sad song  
A physical classroom

Where I learned nothing  
Just flashes of your face  
Just flashes of your face  
And my solution is

It's all a facade  
It's all a facade  
It's all a facade  
And nothing really matters now

It's all a facade  
It's all a facade  
It's all a facade  
But nothing really matters now

It's all a facade  
It's all a facade  
It's all a facade  
But nothing really matters now

It's all a facade  
It's all a facade  
It's all a facade

He's stranded somewhere on the Mesa St. exit  
And sometimes I'm jealous waiting at the intersection  
His heart was too heavy to hold  
Yes there's blood on the median like a boat without  
oars

I had a friend who's heart was too heavy to hold, too  
heavy to hold  
And it's so heavy to hold  
Yes there's blood on median like a boat without oars  
Like a boat, without oars

It's all a facade  
It's all a facade  
It's all a facade  
But nothing really matters now

It's all a facade  
It's all a facade  
It's all a facade  
But nothing really matters now

It's all a facade  
It's all a facade  
It's all a facade  
But nothing really matters now

It's all a facade  
It's all a facade  
It's all a facade
