"Puget Sound"

Visit "[Puget Sound](#)" on MotoLyrics.com

Everybody came and went
Summers number one event
Left early on and spent
The next day sinking
We should just live here
The water looks so clear
An unholy union
Bubbles she blew then
Let us all down

Sit the wrong way on a train
Two of these will ease her pain
Find someone else to blame
And come back Tuesday
Hasn't she grown so
You weren't around? oh...
Hasn't she grown so
You weren't around? oh...
You don't even know me
But yes you can hold me
How does that sound?

Driving round the Puget Sound
Find you at the lost and found
It's easy to astound
If someone needs you
But there's a bright side
You could say you tried
You don't even know me
But yes you can hold me
How does that sound?
But there's a bright side
You could say you tried
