

## **Aim For The Sunrise** **"The Bigger Picture Hope"**

We stare at the sun, until it blinds us.  
No room for responsibility,  
We're  
Too busy buying lies.  
And this claustrophobia will  
Choke us, everytime we  
Try.  
I've developed a fear for  
Everything, a fear for openness.

I slowly  
Start to hope.

X2  
As the sky turns red,  
As the snow melts in our hands  
Your  
Tears will lead us in,  
And keep us warm and safe again

(And I will leave you  
With just a word,  
A word that literally describes everything)
