I've been able to hold it all together, because there was  
a light at the end of the tunnel.

A life, for all of us.

And now what have I got?

And we will keep

On floating, as long as it takes for the message to sink  
in.

Keep on floating,

As long as it takes.

Find your way back to grace, and to us!

Find your way

Back to grace, I haven't given up on you yet.

We can't take another step,

We're blinded by rage.

We've given into the weakness, anticipation is choking  
us.

The walls are closing in,

Don't swear to God,

Swear to me!

The sky is

Clearing up

Don't swear to God

Swear to me

The sun will rise

The sun will

Rise again.

Find your way back to grace, and to us!

Find your way back to grace,

I haven't given up on you yet.

Maybe dangerous to choose the way, I

Rather live than die today

And if the wind invites the rain, the rain invites the cold.

And if the cold invites the snow, we freezing out of  
time.

Climb  
This mountain that ruined your life

Can I get an amen?

From all the lost  
Souls in the crowd.

I know what you're afraid of

Take a picture and frame it  
Up on the wall, show all your friends how bad you are.  
Why do we fall?
