Are you ready now?
Go ahead, take a shoot, and make em' burn!
Tearing down
Your blue skies,
I can not go on, my lungs will
Collapse, they will
Collapse!
Come on man and stop the lies,
Take a chance and roll the dice,

Come on man and stop the lies,
Take a chance and roll the dice,
Get a
Grip I want you to stop!
How many times will I
Let this slip through my
Fingers
For far to long I have been
Waiting for your grace.
Salvation to
The lies,
To fucked up for our eyes
Salvation to the lies,
To fucked up
For our eyes
Let this be a proof of madness,
To establish your
Selfishness.
I'll step back, I'll step back
And watch you burn
Burn in the
Last walk, the last
Walk from here, burn, this
Walk can get lonely!
How
Many times will I
Let this slip through my fingers
For far to long I have
Been
Waiting for your grace.
