upside down  
my grades are down from a's to d's  
i'm way behind in history  
i've lost myself in fantasies  
of you and me together

I don't know why but dreamin's all I do,  
I won't get by your mere imagination

upside down bouncin of the celing  
inside out stranger to the feeling  
got no clue what i should doooo  
i'd go crazy if i cant get next to you  
to you

my teacher says to concentrate  
so what's his name, is Peter the Great  
the kings and queens will have to wait  
couse i dont have forever

I wish that I could walk right up to you,  
each time I try the same old hesitation

upside down bouncin of the celing  
inside out stranger to the feeling  
got no clue what i should do  
i'd go crazy if cant get next to you  
to you

Somehow, someday, you will love me too,  
one day will be the day when all my dreams come true

(chorus)
