Wise men say only fools rush in
But I cant help falling in love with you
Shall I stay
Would it be a sin
If I cant help falling in love with you

Like a river flows surely to the sea
Darling so it goes
Some things are meant to be
Take my hand, take my whole life too
For I cant help falling in love with you

Like a river flows surely to the sea
Darling so it goes
Some things are meant to be
Take my hand, take my whole life too
For I cant help falling in love with you
For I cant help falling in love with you
