Hey is there something I can do?
He broke your heart in two
Many Pieces
Now you've gotta put it back again

Now when you're tryin to make it through
And you're feelin kinda blue
I'll be there to tell you
That things will change

When you turn around
All the tears will dry
Whatever was lost
will be found
In the blink of an eye
When you're losing ground
Hold your head up high
Whatever was lost
will be found
In the blink of an eye...

(Ahh-hh)

Hey no one should be sinking deep
I know I oughtta weep
Like a baby
But it's really not that bad

Cause when my heart was aching
When my world was shaking
You were there to tell me
That things would change

When you turn around
All the tears will drown
Whatever was lost
will be found
In the blink of an eye
When you're losing ground
Hold your head up high
Whatever was lost

will be found
In a blink of an eye....ye..

(Ahh-hh)

I thought my heart
was on the mend
Now I'm falling for a
friend
Someone who was there for me
When things were changing...
In the blink of an eye...
Everything changes...
In the blink of an eye...
What's lost can be found...

When you turn around (when you turn around)
All the tears will dry (all the tears will dry)
Whatever was lost
will be found
in the blink of an eye
When you're losing ground (when you're losing
ground)
Hold your head up high (hold your head up high)
Whatever was lost
will be found
In the blink of an eye

When you turn around
All the tears will dry
Whatever was lost
will be found-
