Whoo  
Lovin' your smile  
Lovin' your style  
Don't you get it?  
Got what I need  
You gotta believe  
I'm already yours  
Let your heart do all the talking (hoo!)  
Give it a shot  
Give what ya got  
Take me flyin'  
Give me your lips  
Give me the kiss  
I've been dyin' for  
Let your heart do all the talking

Take my hand  
Understand  
That dreams can come true

And all you gotta do  
Is to go, is to flow  
With emotion, you  
Gotta know, gotta show  
The devotion  
I just wanna be close to you  
(In the sunshine)  
Wherever the sun shines  
(In the rain)  
Wherever you go  
Let your heart do all the talking

You're makin' a mistake  
You're makin' me shake  
With desire  
Don't need a break  
Don't wanna wait  
'Til the fires gone  
Let your heart do all the talking  
Get in the game  
Get in the zone  
Get in the action

There's really no shame in letting me know that I'm the  
one (yeah)  
Let your heart do all the talking

Take my hand  
Understand  
That dreams can come true

And all you gotta do  
Is to go, is to flow  
With emotion, you  
Gotta know, gotta show  
The devotion  
I just wanna be close to you  
(In the sunshine)  
Wherever the sun shines  
(In the rain)  
Wherever you go  
Let your heart do all the talking

Let your heart do all the talking  
Let your heart do all the talking

Now finish what you've started  
Because you brought it  
There ain't no better time  
Don't be so chicken-hearted  
If you want it  
Lay down the line
