*[Boys Sing]*

You spend your money on diamonds and pearls  
I'd sell my car (just) to travel the world  
I look broke baby - you got flash  
But even so we're a perfect match

You're into fashion, dinners and art  
I know the south park series by heart  
You conversate baby - I talk trash  
But even so we're a perfect match

*[Girls Sing]*

We're like night and day - White and black  
But what we have is a perfect match  
When I say this - you say that  
But love comes easy 'cause opposites attract

*[Boys Sing]*

You keep your clothes looking crispy & clean  
(alt. keep your clothes so fresh and so clean)  
I got holes all over my jeans  
You love "Grease" baby - I love "Snatch"  
But even so we're a perfect match

*[Girls Sing]*

We're like night and day - White and black  
But what we have is a perfect match  
When I say this - you say that  
But love comes easy 'cause opposites attract

I know - we'll beat the odds together  
We'll keep our love intact - and prove that opposites  
attract
