When I wake up in the mornin'  
Before I style my hair  
The first thing on my mind  
Is I hope he cares

And every single evenin'  
Before I hit my bed  
My mind analyzes  
Every word she says

It seems like everybody's got someone  
A hand to hold and a soul to touch  
I want it all so much

I can't get you, I can't get you  
I can't get you off my mind  
When I'm with you, I know I could  
Love you 'til the end of time

I can get you, I can get you  
If you could just tell me how  
'Coz with all this love around  
An' me without you  
I'm feelin' singled out

If I only had the courage  
To open up my heart  
Would he run, would he hide?  
Would he light a spark?

Should I walk up to her?  
Should I throw a charmin' smile?  
Should I say that her eyes  
Light up my skies?

Seems like everybody's got someone  
A hand to hold an' a heart to touch  
I want it all so much

I can't get you, I can't get you  
I can't get you off my mind  
When I'm with you, I know I could

Love you 'til the end of time

I can get you, I can get you  
If you could just tell me how  
'Coz with all this love around  
An' me without you  
I'm feelin' singled out

Every single day  
I see these couples walkin' by  
And if I took a chance  
Maybe I could be one of them

If only I could have you as the one  
The hand that I could hold, the soul to touch  
The heart that I control

I can't get you, I can't get you  
I can't get you off my mind

I can't get you, I can't get you  
I can't get you off my mind  
When I'm with you, I know I could  
Love you 'til the end of time

I can get you, I can get you  
If you could just tell me how  
'Coz with all this love around  
An' me without you  
I'm feelin' singled out

I can't get you, I can't get you  
I can't get you off my mind  
When I'm with you, I know I could  
Love you 'til the end of time

I can get you, I can get you  
If you could just tell me how  
'Coz with all this love around  
An' me without you  
I'm feelin' singled out

I'm feelin' singled out
