Hmm... yahh.

(Verse 1)

My thoughts about love have changed, babe
It's all because one lady... you.

And now my whole life is changing,
I'm day dreaming and I keep thinking...'bout you

(Chorus)

You know you are, the love of my life
Cuz you light my world with a simple smile
You're a star
... baby you are

Open your arms, and baby don't hide
Let down your guard and let me inside
So I can try to conquer your heart

(Verse 2)

You've got warmth inside, it's imprinted.
You make flowers bloom in winter
... yah you

You come forward so sexy and classy
You make it look so easy
... yah youuu

(Repeat chorus *fade*)
