Get on the dancefloor
Your feet are all you need
No time to waste now
Get ready for tonight
All you have to do
Is to feel the music
Spread the word to everyone
Tell your friends to come
Stay here forever
Take me and show me how
To dance under the moonlight
Come here don't be shy
Cause everything is alright
So many bodies are trumbling in the light
No time to waste now
I feel your hands in mine
All you have to do
Is to feel the music
Spread the word to everyone
Tell your friends to come
Stay here forever
Take me and show me how
To dance under the moonlight
Come here don't be shy
Cause everything is alright
