Terrified eyes watching the desolate present
Terrified eyes the light is also forgotten

The view of wrath, the shadow of the ancient ones
I am waiting for them,
They will arise devouring the cosmic blasphemy
Of this modern lie, vengeancefully!

The land is bloodred - cradle of cemeteries
Few condemned survivors watch the scene
From bad hidden places
Cold hand awaits them - it's only a matter of time
Few condemned survivors watch the scene
From bad hidden places

Distant memories of a mourned past
When human diplomacy stopped the bestial instinct
Existence fearless memory for us
Sleep behind the veil of death
Time has come to pull the shadow plug
