Tired of feeling all by myself
Being so different from everyone else
Somehow you knew I needed your help
Be my friend forever
I never found my star in the night
Building my dream was far from my sight
You came along and I saw the light
We'll be friends forever
Refrain:
I can't face the thought of you leaving
So take me along
I swear I'll be strong
If you take me wherever you go
I wanna learn the things that you know
Now that you made me believe
I want you to take me
'Cause I long to be
Able to see the things that you see
Know that whenever you do
I'll follow you
Somebody must have sent you to me
What do I have you could possibly need
All I can give is my guarantee
We'll be friends forever
I can't face the thought of you leaving
So take me along
I swear I'll be strong
When you take me wherever you go
I wanna learn the things that you know
Now that you made me believe
I want you to take me
'Cause I long to be
Able to see the things that you see
Know that whenever you do
I'll follow you
Teach me more with each passing hour
By your side
I'll follow you
I know I would cover?
Is it true that you have the power
To capture this moment in time

Take me wherever you go
I wanna learn the things that you know
Now that you made me believe
I want you to take me
'Cause I long to be
Able to see the things that you see
Know that whenever you do
I'll follow you
Take me wherever you go
I wanna learn the things that you know
Now that you made me believe
(I want you to take me...)
I want you to take me...
