I've landed on my feet,  
Gotta dig in deep,  
Gotta keep it to the street  
My clothes my hair are looking real neat  
If you get to near your gonna feel the heat.

Excuse me get out of my mind  
There's a thought in there that I struggled to find  
But I need to, remember why  
I'm so different to every other guy

And oh, it brings me down,  
Right to the ground  
It makes me question every day  
And I say hey, what it means to me  
I'm not the person you want me to be

Everybody get up get up  
Everybody JUMP  
Everybody get up get up  
Everybody JUMP

The beginning is here and the end is gone  
I know what your thinking when I'm singing this song  
And there's so many lies in this atmosphere  
So hold your self-cus I'm staying well clear

Excuse me get out of my head,  
Get out of my life and get out of my bed  
Cus I to remember why  
I'm much better then the average guy

And oh, it brings me down,  
Right to the ground  
It makes me question every day  
And I say hey, what it means to me  
I'm not the person you want me to be

Everybody get up get up  
Everybody JUMP  
Everybody get up get up  
Everybody JUMP

[CHORUS X2]
