[spoken]: happines is what you make of it

i see people come and go

my mother told me she said don't let life control me
but i did
so wacha think of me
wacha think of me now
who i am

i'm everything you wanted me to be

but you can see i'm not very happy

i need some time to find myself within me
and i need some time to find true love
and if i can't then i won't stop trying
and if i don't then i won't keep lying
what do poeple really want
they want to be happy
i wanna be happy
