She's gonna flash her eyes
Under moon lit skies
He's gonna meet her there
Under the exit sign
Yeah they both look good
They need to be seen
He's a James Dean rebel
She's a beauty queen
Let's dance, Let's Dance

She wants to go all night
He wants to make no sense
She wants to feel his kiss
It's so much better tense
She said trip the lights
That's what she said
And now she's in his head
She's in his head
Let's dance
And let the world fall apart

I need you tonight
Let's howl at the moonlight
I'll say it two times
I love you, I love you
'Cause it feels right
Savage and civilized
Like teenage wildlife
I love you, I love you

She said
I get so bored living in this place
We all need to go where the music plays
All night
So let's dance

He said life's a cage let's jump the fence
All I want is you and let's forget the rest
Let's dance
And let the world fall apart
'Cause

I need you tonight
Let's howl at the moonlight
I'll say it two times
I love you, I love you
'Cause it feels right
Savage and civilized
Like teenage wildlife
I love you, I love you

I love you, I love you

And we fall from the sky
When we hear the sound
Go on for miles
But won't hit the ground
Don't be afraid
They can't catch us now
'Cause baby we are teenage wildlife

I need you tonight
Let's howl at the moonlight
I'll say it two times
I love you, I love you
'Cause it feels right
Savage and civilized
Like teenage wildlife
I love you, I love you

Oh I love you
I love you, I love you
Baby, Baby, Oh I love you
I love you, I love you
