In this cell that is ours there is no pity  
No sunrise on the cold plain that is our soul  
No beckoning to a warm horizon  
The sun shall never greet my eyes again

It is our world  
It is stolen from us, bastards

No goddamn sun, no goddamn pain  
I've searched my heart for love  
But all in vain  
No goddamn sun, no goddamn pain

Exploring life without fear  
Without feeling I am one  
With my torment and forever blind

My desire clenches itself in a hungry fist  
And welcomes my soul to the thirst of dying  
Mother of all, come take your revenge  
The sun shall never greet my eyes again

It is our world  
It is stolen from us, bastards

No goddamn sun, no goddamn pain  
I've searched my heart for love  
But all in vain  
No goddamn sun, no goddamn pain

Exploring life without fear  
Without feeling I am one  
With my torment and forever blind

No goddamn sun, no goddamn pain  
I've searched my heart for love  
But all in vain  
No goddamn sun, no goddamn pain

Exploring life without fear  
Without feeling I am one  
With my torment and forever blind

Forever blind
