I'm controllin 'em, neva hatin', watch me luv'in' 'em
Don't acknowledge haters 'cause I don't be trustin' 'em
I'm about to make a lot of people mad, my bad
You got served with the words from my pen and my
pad

This lyrical overdose is hard digesting it
I'm mad hot, it's my year, start respecting it
Ak'Sent with the hyphen at the top
Hip hop, I put a 100% in every line that I drop

These youngins done brought heat to the game
Exchange Ak'Sent off the chain, say my name
I'm payin' my dues for this flashy fame
Bring the hook back, man, and let the chorus explain

Yes, it's Ak'Sent international, flow so hot, she spits
financial
Did I press a button? Now let's be rational, just sing
along
Yes, it's Ak'Sent international, flow so hot, she spits
financial
Did I press a button? Now let's be rational, give her the
song

Now when ya brains hit pause and I kick down your
doors
I'm on every corner be around, sold out in stores
