Kylie give me
Kylie give me

Baby, you're the one that melt my heart
I swear I'm not lying
Maybe tonight I'm gonna try my luck
I can see that you want me
I'm dreaming about you every night
Every night

Kylie give me just a chance
Let's go out and dance
We can get into the groove
I can watch you move
Later you can sing to me
Like a shining star
But I rather do you on the backseat of my car
Kylie give me just a chance
Let's go out and dance
We can get into the groove
I can watch you move
Later you can sing to me
Like a shining star
But I rather do you on the backseat of my car

Baby, take a minute check me out
I sit in the frontrow
Baby I'm the coolest guy in the crowd
I'm sure you have seen me
I'm dreaming about you every night
every night

Kylie give me just a chance
Let's go out and dance
We can get into the groove
I can watch you move
Later you can sing to me
Like a shining star
But I rather do you on the backseat of my car(x2)

You drive me crazy

You slowly drive me crazy
Think about you baby
Can't get you out of my mind
I should be lucky
I should be so lucky
I should be lucky to sleep with you tonight

Kylie Kylie Kylie

Kylie give me just a chance
Let's go out and dance
We can get into the groove
I can watch you move
Later you can sing to me
Like a shining star
But I rather do you on the backseat of my car(x2)

Kylie give me
