Akon Feat Pitbull & Darkchild - America Lyrics

I come from a far to see her
every body in the wolrd wants to meet her
i fly thousands of miles to take a picture
so beautiful and magical i dream t of her ever since i
was a little boy
so i came to i fnd her
she is my special girl
nothing else like her
i search around the world
i wanna make her mine
i think of her all the time
shell never leave me 2x

Chorus.

Her name is america
shes my lady
i plege to protect her heart
oh so amazing
her name is america
shes is my baby
i promise to love her
only god above her
Shes america
na na na --
and I want her
Shes america
na na na --
and i love her
Fight to keep her
battle anyone if they try to steal her
Pick my arm up and put my fists down
Shes my number 1 that only want i want to stay by her
