gabrielle unions age strapped with all poke refreegees,  
in a house on a hill in the West Indies, if you let me i  
could give you everything that you need, speed in the  
central lanes wide open, she what im lookin fo, fo  
certain, theres no person that can take your place, im  
like a fat kid with cake when were face to face, part  
place when your here but aways when your gone, hard
