She just the type(type)  
that I've been searchin for all my life,  
the type (type) that will make a nigga feel so right  
the type (type) that I'd rather make love than fight  
the type (type) that gets it poppin every single night

Shes my dream girl  
my one and only  
my dream girl love it when she come on me  
shes my dream girl (okay)  
my lover, my homie, shes my dream girl  
its just me and you against the world

(Tay Dizm)

Every single night before I go to sleep, I give thanks to  
the love to see you and me, my lady you dont have to  
force a fight, we can go hit the streets and enjoy da  
night, you my lover you my homie gotta do you right,  
you so tight, like girl I can see you in my dreams, my  
day like all about you and me, its guarenteed you  
gettin that lust from me, no exstasy, take you to the  
ecestacy, me you spent the part never that to be, new  
city new faces, im gone, mama gonna be waitin for me  
to get home. Why she my dream girl, that mama quick  
and wise, she my dream girl thats why I made up my  
shawty

Ass poked out like Lisa Ray, Janet hips, thighs, waist,  
Gabrielle Union's face strapped with Oprah Winfrey's  
cheeks, in a house on a hill in the West Indies, if you let  
me I could give you everything that you need, speedin',  
switchin' lanes wide open, she what I'm lookin' fo, fo  
certain, there's no person that can take your place, I'm  
like a fat kid with cake when we're face to face, heart  
paced when you're here but erased when you're gone,  
kinda hard to pick a team, when you race alone. Why  
she my dream girl, that mama quick and wise, she my  
dream girl that's why I made up my shawty

First time nigga Dizm put his eyes on you,  
no lie girl, I felt like my dream came true  
you and I plus ten and little bit more  
and the motion in yo hips got your boy like woah

If you feel like I feel, girl  
please let me know  
???  
I got plans for us to follow through  
you my dream girl baby  
so it's all about you, 24/7, girl I'm all about you, it's real,  
whenever you need me I'm right here
