Some reason today I ain't feelin' real good
(And I don't know why)
Cus normally I be up and up to no good
(And I don't know why)
I feel like it's gon' be a long day
(And I don't know why)
So let me go and put the bullshit beside and tell you
like this
(So let me go and tell you why)

It ain't fair to you, it ain't fair to me
So let me live my life
It's better the life for the one you want me to be (want
me to be)
So girl go and do you, cus I'm gon' do me
So just live your life
We'll get back together if it's meant to be

Said you loved me way too much to be friends
(And I don't know why)
Feel like you ain't never gave me a fair chance
(And I don't know why)
All and all I loved the experience
(And I don't know why)
In the future call forth we'll be back together again
(So let me go and tell you why)

It ain't fair to you, it ain't fair to me
So let me live my life
It's better the life for the one you want me to be
So girl go and do you, cus I'm gon' do me
So just live your life
We'll get back together if it's meant to be
If you believe that I got one and back won't let me live
Can you believe that I got small problems that seems
so big
Can you believe that I got - got to lie to a four to five
And that ain't right
Can you believe that I got - got to go trust is gone but

See I'll always love you baby
No matter where I go (ooh yeah)

Even though you drove me crazy
Iâ€™ll always keep you close (ooh yeah)
No longer happy here
Thatâ€™s why I wonâ€™t shed a tear
So go â€™head and live your life girl
Best believe Iâ€™ll be right here

It ainâ€™t fair to you, it ainâ€™t fair to me
So let me live my life
Itâ€™s better for life for the one you want me to be
(yeahh)
So girl go and do you, cus Iâ€™m gonâ€™ do me
So just live your life
Weâ€™ll get back together if itâ€™s meant to be

See Iâ€™ll always love you baby
No matter where I go
Even though you drove me crazy
Iâ€™ll always keep you close
Weâ€™re no longer happy here
Thatâ€™s why I wonâ€™t shed a tear
Just go â€™head and live your life girl
Expect to be Iâ€™ll be right here
