i know you searching and its not ok,
just wanna be loved by the mr right ain't come your
way,
just wanna lift you off your feet and help you levitate,
you've lived so many lies it seems you've lost your way,
so let me be the one to come and help you navigate,
and leave your worries up to me and let me get rid of
shade,
don't ever wanna put you down im here to motivate,
like its a love academy and this is your first day,

Chorus

You wont have to put on your red light,
i give you the green light,
to have the spotlight tonight,

has the smoke pass through your lips,
the earth is right at your finger tips,
wanna wave your problems by,
and get high.. and high..

i'll be the wind that'll touch your lips,
light me up with one single kiss,
inhale and exhale me away
and get high.. and high..

yeah yeah..
high..

yeah yeah..

i heard you used to break heart that was your forte,
now everything you did is coming back to u today,
and every man is playing off your insecurity,

and that's to try to control you like chevrolet,
and that's the reason why acting so snobby,
keep it up you'll be alone with nobody,
getting picked up in hotel lobby,
and have your red light flashing like roxy,

Chorus:

You wont have to put on your red light,
i give you the green light,
to have the spotlight tonight,

has the smoke pass through your lips,
the earth is right at your finger tips,
wanna wave your problems by,
and get high.. and high..

i'll be the wind that'll touch your lips,
light me up with one single kiss,
inhale and exhale me away
and get high.. and high..
