Akon:

See me in a limousine
Or in a magazine
On a movie screen, up on MTV
Best player on my team
I'm a MVP,
Plus I make the club jump, jump,
Like a trampoline

We make it jump, jump, jump
We make it jump, jump, like a trampoline
We make it jump, jump, jump
We make it jump, jump, like a trampoline

IShan:

Hey I said jump, like a trampoline
In the club can't get these women off of me
Yeah, you all so hot, let me get the key
Shake that but like a tambourine girl
Never seen another lady
Going crazy for a paper while I'm in between
But you never see me too
With a similar move, to get you on your feet

So can we, so can I
I can feel you wanting
Just looking in your eyes
Think I can't mamma you be in for surprise
Looking so bright, like I know when to shine
So, out by home tonight
I'm almost sure start jumping now
I'ma take you down, yeah crazy wow
Cause the whole club summer gon be breaking now

Akon:

See me in a limousine

Plus I make the club jump, jump,

Like a trampoline

We make it jump, jump, jump
We make it jump, jump, like a trampoline
We make it jump, jump, jump
We make it jump, jump, like a trampoline

IShan:

It's no problem, we ain't got none
In the big team, new shotgun
I'ma throw this money like I got some
Party all night, I don't care if the cops come
Get a stage here, we'll rock'em
Big stadium, all crowd gone
Never seen a rapper that would fall on the top
Who the paparazzi up, ever seen a whole crowd jump
Yeah, look who came to see
Everybody moving like they same with me
And baby I can dig how you play the base
So we can make you jump like a trampoline

Oh stay off the ground
Wanna see your feet pound like up and down
Keep the beat thumping so we can make the sound
And put this roof on fire, we gonna tear the place down

Akon:

See me in a limousine
Or in a magazine
On a movie screen, up on MTV
Best player on my team
I'm a NVP,
á¹-lus I make the club jump, jump,
Like a trampoline

We make it jump, jump, jump
We make it jump, jump, like a trampoline
We make it jump, jump, jump
We make it jump, jump, like a trampoline

IShan:

So now I'm saying that I love the way you move
And bring some friends over here, I wanna introduce
'em
If you rollin' with me then you better get loose
And we drink about a one
So it's duck, duck, goose
And I see the way you shakin'
It's an epidemic
We don't need the hosá¹-ital, throw away the
paramedics

They can't even stop us tho
We should make a new direction, cause we
unstoppable
Me and Steven di Gelasso
Get my brother on the board doin' good
Jumpin' like a trampoline, like I know you should
Got a couple shots in my neighborhood
All the local watches, looking like a €
Got my body, where's your boy
You heard he just got shot
And now they said they can't believe
Here's Akon for the hood:
