[Akon chorus]

That girl used never wanna give me no pussy
And I couldnt ever ever figure out why?
Then I came up on all this money
And now she shake her ass everytime I walk by
Couldnt help but to bend that ass over

[Ice Cube]

Look at you girl, eyes brown, ass round
Feels like a nigga chasin down a rebound
It's bouncin like a basketball, if you got no ass at all
Sorry girl but you won't make the casting call
Skinny bitches need to find that nutritionist
Shit that make yo' ass so thick and delicious
Is it the food or is it the water?
That make your daughter wanna show what Momma
taught her
C'mere... let me whisper in yo' ear (wassup)
Tell ya all that bullshit that you wanna hear (let's fuck)
You prolly hate my fuckin guts in a year
But right about now, you like a nigga's style huh?
How I talk, how I smell, how I smile
How I think, how I fuck, how I grind
Fuck wit' me, ya get ya meat and ya vegetables (ooo
gonna love it)
Fuck wit' him, ya get a fuckin metrosexual (gonna love
it)
You want a man stronger than you
Not a motherfucker in the mirror longer than you
Break a nail and his punk ass lookin for glue
You want a nigga wit' a hard dick lookin at you (lookin
at you)

[R. Kelly]

And woo and wee and you and me, havin fun, then
when it's over in the mornin I say gracias baby, then
before you go I say dolomo.

[Juelz Santana]

No matter where at (house)
No matter what we in
I get the job done show me the clock I'm punchin in

I keep so pretty, hands, nails, toes pretty...
Call me anytime, anytime girl I'm up late
You can call me up and I'll scoop you up on your lunch
break
I lay her down I lay her down like rose petals, she
scream my name she scream my name

[Akon chorus]

That girl used never wanna give me no pussy (it's a
problem)
And I could ever ever figure out why why why (then
what?)
Then I came up on all this money (jones)
And now she shake her ass everytime I walk by (it's a
problem)
Couldnt help but to bend that ass over...

[Jim Jones]

So as I zoom on (vroom) blowin smoke tryin to get the
scent of her perfume off
I'm tryin to come home a decent time so I don't look
suspicious
Check the cellphone, erase all the pictures
Lady got me twisted...
Need to slow down, breathe exhale,
I was almost done like I'm on... then almost got to my
bed and she beeped the nextel

[R. Kelly]

Number one, Number one, Number one
This is, this is number one

Uh, uh, one two one two

Nigga I run...
