i'm turned on,
you've got your girl,
then why she's watching us?
she wanna leave,
i'm ready to go,
we could go at the back
so don't nobody know.
look at your girl,
she's all over me,
nicky minaj be my little friend!
..up in the club,
if you're looking forward
sure you're looking for me to let me love!

let me love you, girl!
show me love!
let me love you, girl!
show me love!
let me love you, girl!
show me love!
let me love you,
let me love you!

chorus:

right before i take you home
you gotta take it low!
take it down, take it down
take it down low!
take it down, take it down
take it down low!
take it down, take it down
take it down low!

take it down, take it down
take it down low!

you don't need your computer, girl
i'mma be your tutor,
if your man ain't popping his eyes, he's a loser!

take ya home, we fool around,
rub all your body,
then i'll let you down!
me want you,

like your favorite song,

put it on repeat!

let me love you girl
show me love!
let me love you girl
show me love!
let me love you!

chorus:
before i take you home
you gotta take it down!

watch her breaking down!
her booty swirl,
ass shake the ground, pop that booty now
pop that, pop that booty now!
pop that booty now!

pop that, pop that booty now!
â€¦this bitch, i make them yell, i make they holler!
what you're talking about?
hell, yeas i've got 'em jealous!
and money onâ€¦
money, money onâ€¦
my presidency is going in the air when she wines on my
â€¦
..she's from the south she's on myâ€¦
after that i give herâ€¦ and she said this is on parole!
up and down just like herâ€¦
give her a moment and then she'll go!
on the floor, on the floor,
take it down, take it down, down!
for all the stupids on my head list,
watch how many rags i blow.
they say this chick is best for my..
i know, i know, i know!
and i've got 'em all taking off their clothes,
and i've got 'em all working on that â€¦
i'm the bomb like â€¦ akon what you're waiting on?

chorus:

take it down, take it down
take it down low!
take it down, take it down
take it down low!
take it down, take it down
take it down low!
take it down, take it down
take it down low!

you like that?
yeah, i like that!
you like that?
