Falling so deep and there's still no ground in sight  
The light in my eyes is someone blowing out  
You say you never meant to hurt anyone  
Now that you see what your words have done

Chorus:

I feel like I'm dying  
I've no place to go  
I will stay where I am now  
Who can ease my pain?  
I feel like you're watching  
What I'm about to do  
I will live in this misery  
'Cause they can't ease my pain

Walking along a road to the unknown  
They are stealing my sight, I can't find my way back  
home

Why don't they try to solve their own problems  
Instead of keeping a close watch on their victims?

Repeat chorus

Can't ease my pain...  
Can't ease my pain...  
Oh... can't ease my pain  
They can't...

Can't ease my pain, can't ease my pain  
Can't ease my pain, can't ease my pain  
Can't ease my pain, can't ease my pain  
Can't ease my pain, can't ease my pain  
Can't ease my pain, can't ease my pain

Repeat chorus
