Feel like it's the last day on earth, oh  
Feel like you have never felt before, yeah right  
Who's to blame you in the end, if not you - who?  
I can feel it coming towards to the edge  
Is it gonna lead you, or are you leading yourself?  
Now call the evil by its name  
3...2...1... Go!

I'm ready to learn, I'm ready to work  
I'm ready to earn, I'm ready to hurt  
I'm ready to show, not going to fall  
I'm ready to go, oh oh  
I'm ready to kill, I'm ready to call  
Not able to feel, I'm ready to fake  
You're coming to late  
I'm ready to sell my soul to you  
No time to breathe  
No time to breathe  
Where's time to breathe?

Every single second of your life is finite  
Why would you give this chance away? Why would you?  
Looking from the universe you're an ant and that's  
how you feel  
The frame doesn't fit anymore  
Break out before it is breaking you  
Now punch into its ugly face  
3...2...1... Go!

### CHORUS

Breathe (yeah, huh)  
Now breathe (oh, right)  
It's time to breathe (yeah)  
Breathe (yeah, huh)  
Now breathe (oh, right)  
Breathe, now breathe  
It's time to breathe
