Hey, hey  
Iâ've seen you today, working your ass off  
For something you don't even know if it's worth  
believing in  
Tell me, why don't you get up off your knees  
Say goodbye to this job, to this cage - say hello to your  
dreams?  
In the evening we'll find our new selves

Staring at the sundown  
With a drink or maybe two  
Clinking glasses over all the  
incredible things we can do  
The next day we'll wake up in  
A world with air to breathe  
No, never again we'll swallow  
Only the truth can make us free

I see how unhappy you are - low paid, losing faith  
Having no idea that release is in reach, so grab it now  
I'm here to let you know there is someone out there  
who does care  
And I bet you'll be shocked by how strong your rusty  
spine can be

### CHORUS

Just a little bit of courage  
Just a little less weakness  
And you'll have a revolution right in your head  
Just a little bit of courage  
Just a little less weakness, just a little  
And just a little bit of this cure giving sunlight and  
tonight we well be

### CHORUS 2x

A reason to be seen parading  
Has jumped into your pocket  
A reason to be seen parading  
Plugged into a high voltage socket  
Everything will be alright
